

EXPERIENCE SERIES™
830 Line

AMT® 835

Adaptive Motion Trainer® with Open Stride™

Like every piece of equipment in our Experience Series™ 830 Line, the AMT® 835 with Open Stride™ combines essential reliability and ease-of-use with a natural, low-impact stride to add value to your facility. The 830 Line console integrates our intuitive motion controls and uses an LED-based display that focuses on the essential fitness stats and displays that keep users moving.

At Precor, we recognize that a great workout is the sum of many parts. In your hands, the products, services and technologies we offer can be combined in countless ways to complement the programs, and atmosphere you're creating.

SEE THE AMT[®] WITH OPEN STRIDE[™] IN ACTION
AMTFITNESS.COM

Our new Adaptive Motion Trainer[®] — AMT[®] 835 with Open Stride[™] creates a whole new feeling during a workout. Savvy operators immediately see the benefits of a machine that enables exercisers of all levels to personalize their workouts and keep them engaged, challenged and loyal. The AMT[®] 835 will take the pressure off your other equipment by delivering a range of motions similar to what they offer, making it the hardest working piece of cardio equipment in your facility, and the easiest, most enjoyable to use.

PRODUCT HIGHLIGHTS

- 1 Console**
Created to complement the entire Experience Series[™] line, the P30 console features easy to use motion controls and uses a large LED display that focuses on the essential fitness stats that keep users moving.
- 2 Stride Dial[™]**
The pendulum-like swing of the Stride Dial helps users see their stride length to determine the muscle groups they are targeting.
- 3 Open Stride[™]**
Open Stride[™] is a unique feature that allows exercisers not only to dynamically adapt their stride length from zero to 36 inches (0 to 91 cm) but also to adjust their stride height from 6.8 to 10 inches (17 to 25 cm) providing an infinite range of stride paths to engage several muscle groups. Open Stride[™] can be adjusted from level 1 to 5 with the tactile motion controls.
- 4 Handlebars Fit Everyone**
Three distinct positions on the moving handlebars provide a comfortable fit for nearly every user. The rodeo grip has a heart rate sensor built-in that provides monitoring and a stable, comfortable position when focusing on the lower body.
- 5 Total Body Workout in One Piece of Equipment**
Users can go from short stride to long stride, walking to running, climbing to lunging, allowing them to target different muscle groups. Pushing and pulling the moving handlebars will engage the upper body, resulting in a total body workout.

PRODUCT SPECIFICATIONS

Dimensions (L x W x H): 80 x 35 x 69 in / 203 x 89 x 175 cm
Product Height with PVS: 81 in / 208 cm
Weight: 412 lbs / 187 kg
Power: Self-powered

Total Workouts: 6
Resistance Levels: 1 - 20
Stride Height Levels: 1 - 5
